Canada	N/A	Milk and dairy products	Exports authorizaed based on an agreed certificate. Company authorization not required.	Milk and milk products	N/A	For export, the use of a sanitary certificate agreed between countries is required.	Not available. There is no list of the authorities of Canada regarding approved establishments.
Chile	4	Bovine	223BD - COOPERATIVA COLANTA - FRIGOCOLANTA S.A.	Both frozen and refrigerated bovine boneless meat	Additionally, regarding the expiration of the authorization of the exporting establishments, keep in mind to remember that in May of this year as a result of the global contingency due to COVID-19, an extension was granted, through Official letter No. 2403 of May 4 of the present, for all livestock production establishments that have current authorization, to export their animals and products to Chile, this in order to maintain a fluid commercial exchange and support the sustenance of the national and international economy, mention is also made that the extension will have a validity that will extend until the SAG can carry out the corresponding renewal visits or for a maximum period of one year, where its maintenance will be reassessed, according to the evolution of the pandemic.	For export, the use of a sanitary certificate agreed between countries is required. Classification and typification of cuts must be carried out according to law 19.162 of chile - it is carried out by a certifying company registered and authorized by the sag (chile). Invima verifies it in plant. *NOTE: It must be taken into account that exports of bovine meat from Colombia are not authorized, until Exempt Resolution No. 6378/2018 is lifted by the Chilean sanitary authority. Only boneless meat is allowed.	http://www.sag.cl/ambitos-de-accion/informacion-por-productos-exigencias-sanitarias-especificas/1634/registros
			034DM - ALIMENTOS CÁRNICOS SAS	Both frozen and refrigerated bovine boneless meat
